Docket 097/002

AMENDMENT TO SPECIFICATION

Please reverse the first two paragraphs in the application as filed as follows:

Reference to Related Applications

[0001] This application claims priority benefit of U.S. provisional patent application 60/252,688, filed November 22, 2000, pending. The priority application is hereby incorporated herein by reference in its entirety.

Technical Field

[0002] This invention relates generally to the fields of cell biology of embryonic cells, and transplantation immunology. More specifically, it describes a technology for creating specific immunotolerance in a patient so that they will accept an allograft made from pluripotent stem cells.
